

Bill 41 is Bad for Your Health

Our Ontario Doctors already know that patients are not products and running an office like a factory isn't bad for business but it is bad for your health. This Fall Kathleen Wynne and the Liberal Government are trying to fast-track a bill, Bill 41, that will have you feeling more like a product than a patient!

It's time that we took control of our health by taking it from the hands of the Government and returning it to our Doctors.

Timelines are tight and I know you're busy enough but you can get involved just by signing The Health City Petition at StopBill41.com.

Bill 41 needs a second opinion; lets get it from our Doctors.

Our Doctors see health care

Differently than the Ontario Liberals

Dr. Bill 41's Office - Products not Patients

and I'll call it
The Physician Factory
hahahaha better not
how about Bill 41?
